About Digimon Savers?

About Savers..

Title: <Digimon Savers>

Produced in 2006

Broadcasted in Japan on April 2006

TV series: total 48

The Movie: The extreme power Bust-mood in motion (2006)

Digimon Savers was the 5th TV series which it had broadcasted on Fuji TV after 3years gap of the Digimon Frontier, from 2nd April.2006 through 25th March.2007 every Sunday morning 9am. in Japan.

Previous Digimon series were simply drawing the battle between good and evil but this new Digimon Savers is drawing conflict and peaceful coexistence between digital-world and real-world. For this, there are varies of DATS agents and Partner Digimon stories are described.

About Tamers..

What is Tamers? It means user-self who are growing Digimon.
 Basically, all battles arise only between Digimons and also the digimons have similar battle power.
 The digimon's fighting power depends on Tamer's holding power.

Masaru

Based on tough and physical strength, only character can have a close combat. This character can extract Digi-soul after giving damages to an enemy also give more damages.

Touma

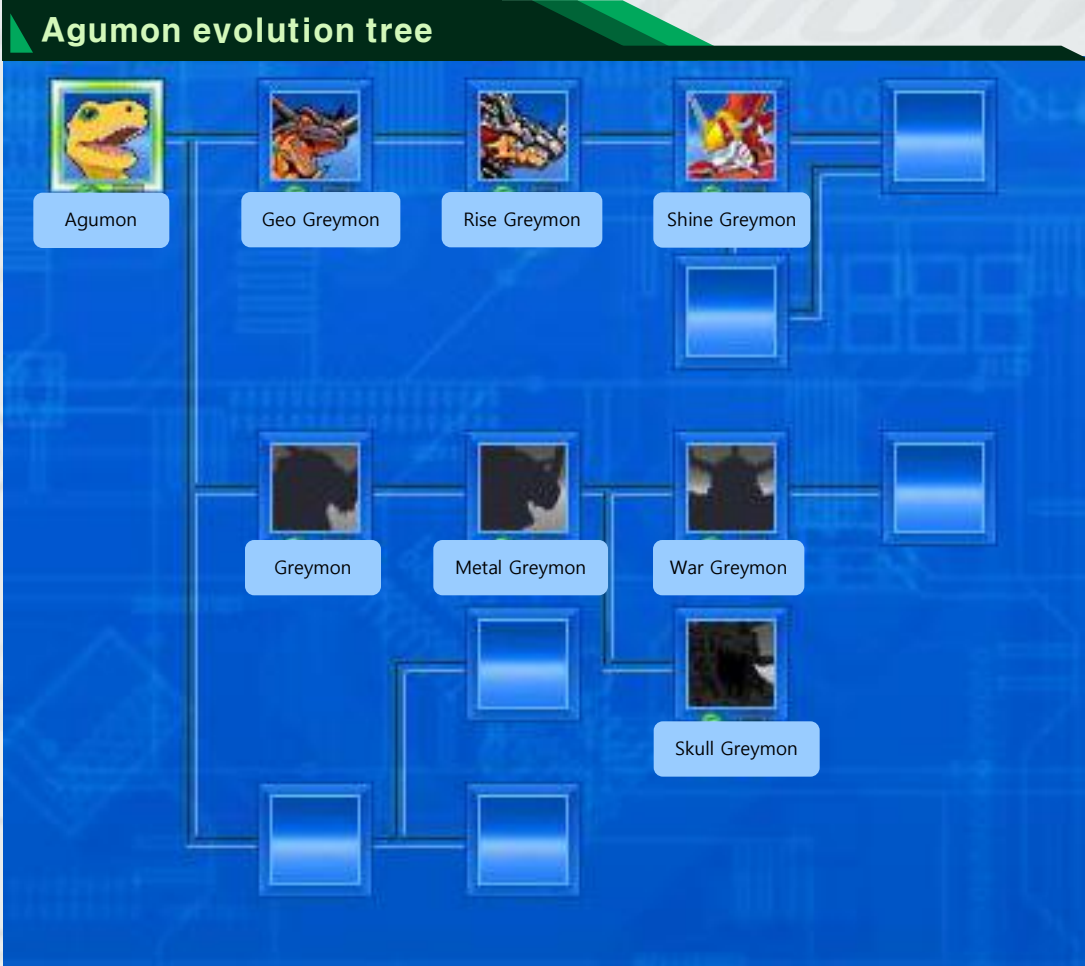

Tamer Touma H. Horstein is 'witch crafting' character. He gives advantages to his digimon in battle by reducing enemy's power using portable laptop.

Yosino

Supporting other party Digimons and mercenary Digimons by using healing skills in order to win a combat and battle. Only disadvantage is can't involve any kind of battles directly just by assistant others.

Partner Digimon : Agumon

Agumon

Agumon is a formative reptile Digimon which can control of the fire but it has different tree from other previous Agumon's evolution. The deathblow is 'Baby flame' (shooting small flames attack from its mouth), 'Baby burner' (recharging small flames into fire in the mouth and then shooting at once)

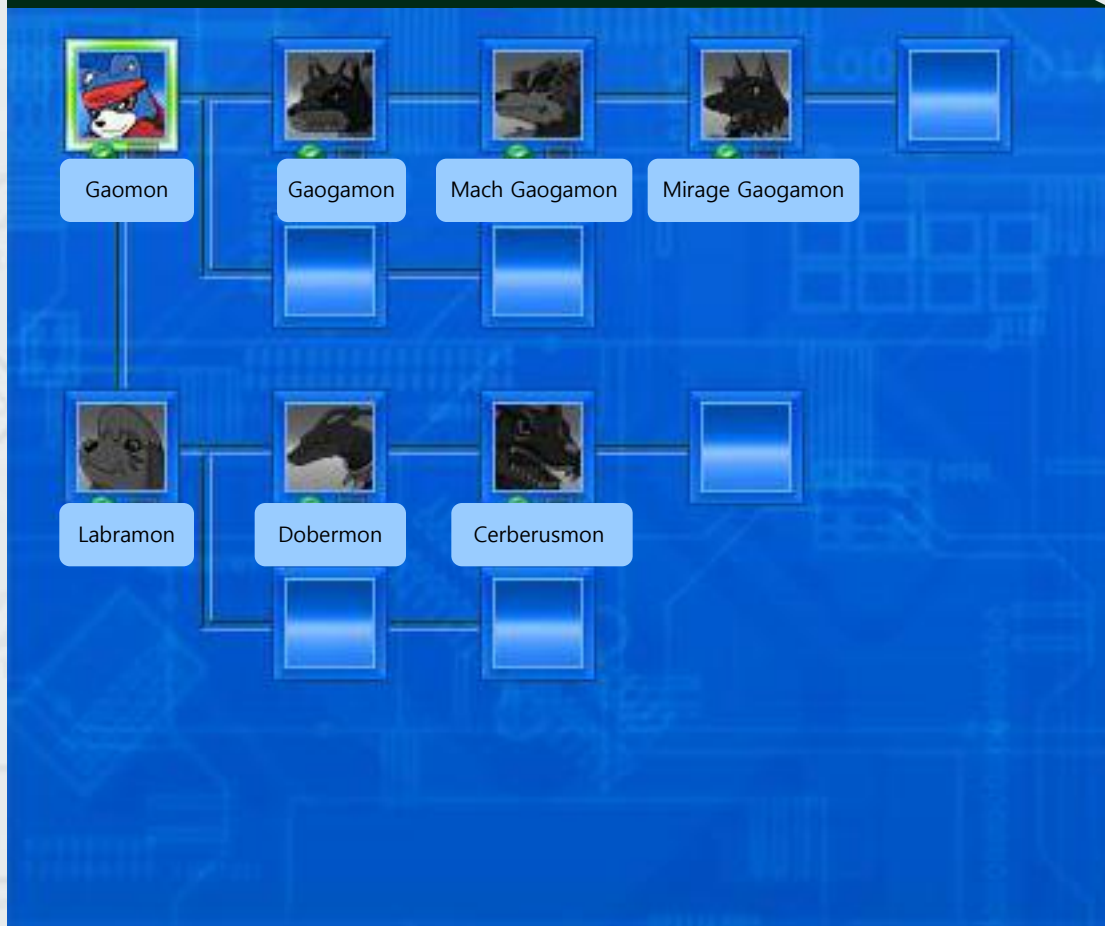

Partner Digimon : Gaomon

Gaomon

Gaomon is a formative mammal Digimon which can control of the wind power and fight like a boxer, so fast and strong for a close combat. The deathblow are 'Double backhand' (after body spinning get the centrifugal force to attack) , 'Rolling upper' (fast spins and jump to attack) and 'Gao rush' (the fastest punches continuously)

Gaomon evolution tree

Partner Digimon: Raramon

Raramon

Raramon is a formative plant Digimon which can control of the ground power and float in the air to attack enemy in both of ground and air battle. The deathblow are 'nut shoot' (spit out the solid seeds), 'Rara screw' (spinnig the leaves on the head to attack) and 'sing a song' (sing a song to put enemy asleep).

Sector. 2

About Game System..

Digi-soul & Digi-vice system

Digi-Soul System

Digi-soul?

It means energy needed when to use skill such as attacking, which has similar meaning with Magic power of other game.

However, Digi-soul in this game is not that simple idea.

Only tamers are able to produce Digi-soul, and the amount of Digi-soul is amplified due to tamer's capability when tamer conveys it to digimon through Digi-vice.

But, if the digimon's power is not enough to take it, digi-soul is destroyed.

That is, this system

Digivice

Digi-vice?

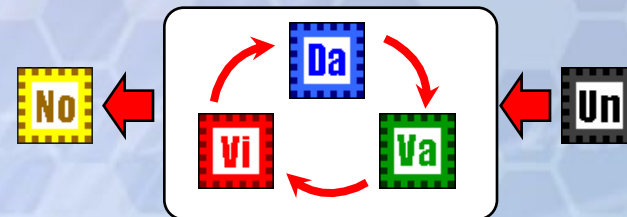

It is a compound word of Digital + Device. Meaning is 'device digitalize human will and deliver it to digimon' As tamer means user's appearance, Digi-vice means tamer's inner capability which makes digimon more powerful.

Only 1 Digi-vice must be possessed per 1 tamer, digi-vice grows together with tamer.

The core system: Attribute system

Digimon Attribute

Digimons are born with their own attributes like their destiny. There are 5 kinds of attributes such as nonexistence attribute, date, vaccine, virus and uncertainty. And these attributes can be favorable or unfavorable to deal in a battle.

Nature Attribute

Nature Attribute is resource of Digimon's power and this power apply to an opponent level system and an environment level system.

Fire	Light	Water	Ice	Wind	Thunder	Dark	Wood	Iron	Earth

Family Attribute

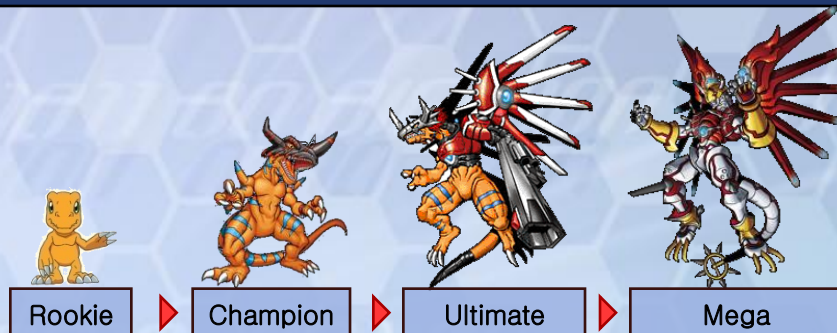

A family is?
Family means for Digimon is very similar with a human's race and all the items are apply to family units to up-grade Digimon's power. For example, 'Nsp' item only can be applied to Nature Spirits interrelated Digimons.

Nsp	Nature Spirits	VB	Virus Busters
NSo	Nightmare Soldiers	WG	Wind Guardians
ME	Metal Empire	UK	Unknown
DS	Deep Savers	DR	Dragon's Roar
DA	Dark Area	JT	Jungle Trooper

The core system: Evolution system

Growth evolution & Quest evolution

All digimon have evolution tree.
 After level up, users can accomplish quest to open the evolution.
 If users accomplish the quest or reach to evolution limit, the evolution tree is automatically open.
 When the evolution tree is open, user can develop their digimon by using tamer's Digi-soul.

Crest, Digimental evolution

There are 11 sorts of crest and digimental, but only 10 sorts of them are used in this game.

Each of crest matches each digimental.

Crest is used to open one of the evolution tree. After compounding some pieces, it is consumed for 'evolution open'.

Digimental is for evolution to the opened one.

		Crest & Digimental of Courage			Crest & Digimental of Reliability
		Crest & Digimental of Friendship			Crest & Digimental of Knowledge
		Crest & Digimental of Miracles			Crest & Digimental of Kindness
		Crest & Digimental of Love			Crest & Digimental of Hope
		Crest & Digimental of Sincerity			Crest & Digimental of Light

The core system: Special evolution system

Dark evolution

Dark Evolution?

Dark evolution is evolving to [Dark evolution form] using [Dark Item].

Not only it has much more battle power than other evolution form in same level, but also it is able to use all skills in spite of not being proper level up.

As this evolution method is to extremes, it has serious aftermath when degraded which is not being able to evolve for a certain period of time.

Matrix evolution & Spirit evolution

Hybrid evolution? It means that tamers are changed to Digimon.

There are 2 types of [Spirit evolution form] by spirit and [Matrix evolution form] by being together with partnermon.

However, users can't take other digimon in this case.

1. Spirit evolution form : There are 20 kinds of spirit, all experience are applied to only the spirit.
 2. Matrix evolution form : users must to take matrix evolution tree, all experience are taken by tamer and digimon together.
- ※ Matrix evolution form come under only some mega including royal knights.

The core system : Mercenary system

What is the mercenary Digimon?

All Tamers are allow to have only one PartnerDigimon but sometimes facing a group of enemies and great-power boss in the battle field. So that Tamers can recruit many kind of mercenary Digimons in order to supply its combat career.

	Partner Digimon	Rugular mercenary	Temporary mercenary	Card mercenary
Belonging	Tamer	Tamer	Period of employee	Card holder
Way to achieve	Creating Character	Digitama hatching	Hire by cash	Purchase with Card
Way of custody	Digi-Vice	Mercenary-chip	No custody	TCG Card
Maximum Possession	Must be only one	Space of inventory	Up to 2 mercenary	No limits
Growth	No growth limits	No growth limits	No growth	No growth limits but limited card use
Evolution limit	Up to ultimate	No ultimate evolution	No evolution at all	No ultimate evolution
Death	Recovery in Digi-vice and reappear possible	Recovery in DigitamaDats	Termination of the contact	Loss data but reappear is possible
Royal Knight	Possible	None	None	None

The core system : Revolution of online game! Mercenary from card!

Digital-Trans Card System

On the market, there are TCG cards which players can buy and put a bar code through 'Digital-trans' to achieve cash and item. Not only that players can also recall a specific character all the time in the game.
